

Mobility beyond today.

**To see progress,
we must drive it.**

Pioneering drive solutions for trucks, buses and off-highway applications

Whether for use in e-mobility or conventional drives, to be a key driver of the mobility transformation with groundbreaking drive solutions is an ambitious commitment that Driventic lives up to every single day.

We're accelerating the future. Electric and conventional.

Not just as the independent successor to parts of the drive systems division of international technology group Voith – but above all as a specialist for efficient drive technologies in the commercial vehicle segment, innovative driving force, uncompromising trailblazer, and active partner.

The foundation for this is our future- and customer-oriented product portfolio. For trucks and buses as well as for off-highway applications. Always individually tailored to the respective requirements of manufacturers and fleet operators and in keeping with the company's guiding principle: "Mobility beyond today".

Our vision

We provide innovative impulses for manufacturers and operators. With one goal: Mobility that doesn't leave any traces behind – except progress.

Our mission

We are reimagining the transport of people and goods – economically, ecologically, and socially. As a technology partner, supporter, and forward-thinker.

Our future- and customer-oriented product portfolio at a glance

#2 DIWA NXT Automatic Transmission

Cutting-edge mild hybrid system.

#3 DIWA Automatic Transmission

Making proven technology even more efficient.

#4 Retarders

Efficient, safe braking.

#5 Turbo Retarder Clutch VIAB

Wear-free integrated start-up and braking system.

#6 TurboCompound

Effectively saves energy and fuel.

#7 Air Compressors

More power with less energy consumption.

#8 Hydrodamp Vibration Damper

Reduced vibrations, longer service life.

#9 Aladin Beyond

Cloud-based fleet management from a single source.

What's more: Customized service for commercial vehicles

- #1 Digital services
 - #2 Replacement parts
 - #3 Reman products
- #4 Service network
 - #5 Technical support & training
 - #6 Modernization

Facts and figures

About Driventic

Driventic is the specialist for efficient drive technologies in commercial vehicles. Whether for use in e-mobility or conventional drives, Driventic's complete systems and digital services are drivers of the mobility transition – because they enable manufacturers and operators alike to sustainably operate their trucks, buses, and off-highway vehicles. The company's 1,400 employees at 26 locations in 18 countries are dedicated to one mission: to combine ecology with technological progress in the service of efficiency. This is what Driventic understands by 'Mobility beyond today'.

Driventic has been on the market since November 1, 2025. The company, which is based in Heidenheim, Germany, is a spin-off of parts of the drive systems division of international technology group Voith. All Driventic's products, systems, and digital services are technological refinements and advancements of Voith solutions.
